

All the best

You don't know
how much I love you
you don't know
how much I long
your heaven's safe
from colourchanging
you do not know
you can not know

Unwind my heart
on your iris
you spin the end
to my day
with honey lips
that leaves me stargazed
it's in the way
of lines you say
and break your moves

All the best is for you
give you always too
nothing less or something else
all the best is for you

Striving under morning
clockwise
castigated in it's
wing
and could it beat
your rhythm blissful
to climb the stars
and hold the blue
open wide
